***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, 16-24 and 26, drawn to recombinant BCG having an extrachromosomal nucleic acid sequence comprising a gene encoding for a first Mycobacteria major extracellular protein selected from the group consisting of 30 kDa and 23.5 kDa.

Group II, claim(s) 27-32 and 41-43, drawn to prime boost vaccine strategies.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The unique special technical feature of Group I is a rBCG containing an extrachromosomal nucleic acid sequence comprising a gene encoding for a Mycobacteria major extracellular protein selected from the group consisting of 30 kDa and 23.5 kDa. Group II, does not require the product of Group I, rather a prime boost vaccine strategy employed with any BCG. Accordingly, Group I and II do not share a special technical feature.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
